Occupational
Health Professionals

Innovative service **safe solutions**

Occupational Health Professionals provides therapeutic supports through the National Disability Insurance Scheme (NDIS) funding to assist people with disability to live safely, gain skills and improve independence.

OHP

Welcome

We form a group of companies with Interactive Community Care providing comprehensive service supports under the National Disability Insurance Scheme.

We provide support to:

- Individuals with complex needs
- Brokering and coordination of support from providers and self managed clients.

Specific areas of support include:

- Mobility and movement
- Activities of daily living
- Language and communication
- Diet and healthy eating

Therapeutic supports are delivered by professionals including physiotherapists, occupational therapists, speech pathologists and dieticians.

Occupational Health Professionals has a long history of working with people with disability.

We have a strong knowledge of the disability sector, and experience working with government agencies and service providers. We listen to you clearly to understand your needs and support you achieving your goals.

NDIS

Therapeutic supports

Mobility and Movement

Our physiotherapists assess, provide advice and assist people with a disability to maintain or increase their mobility and movement.

Services include:

- Physical, limb and physical assessments
- General mobility across all areas
- Strength assessments and home aid physical therapy
- Mobility aids and equipment

Activities of Daily Living

Our occupational therapists can assist people with disability in a wide range of areas which can be sometimes challenging. This may range from simple showering, personal care to plan modifications for a bathroom as examples.

Services include assessment and intervention in:

- Functioning around a household
- Independent cooking and cleaning
- Hobbies and activities
- Access to community

Language and Communication

Our speech pathologists work to increase communication and interaction to maximise quality of life and independence.

Services include assessment and interventions for difficulties with:

- Functional communication
- Speech sounds
- Fluency and stuttering
- Meal time support and swallowing

Dietician and Healthy Nutrition

Our accredited dieticians can provide assessment and service associated with improving the health and nutrition of people with a disability.

Services from us include:

- People affected by food allergies
- Developing a meal and eating plan complementing an exercise program
- Assisting individuals with developing healthy food choices
